- Concentration
- Memory
- Reading
- Writing
- Listening
- Organization
- Comprehension

Paul E. Dennison, Ph.D. is a professional educator, pioneer in brain research, and world authority on cognitive skills and reading achievement. He received his doctorate in education for his research on reading and cognitive development. His clinical research on the causes and treatment of learning difficulties resulted in the development of the Educational Kinesiology and Brain Gym[®] programs with his wife Gail Dennison. These programs are now used in more than 80 countries worldwide and translated into more than 40 languages. He is the author of Brain Gym and Me; Reclaiming the Pleasure of Learning.

You will learn how to:

- Learn anything faster and more easily.
- Be more focused and organized with increased ability to pay attention
- Start and finish projects with ease and reduced stress
- Overcome learning and behavioral challenges.
- Reach new levels of excellence through the realization of personal goals.
- Perform better at sports and all areas of personal expression.

And much more!
