

Study with the Founder and Co-creator of Educational Kinesiology...

TEACHER PRACTICUM INTENSIVE

An Introductory level course series with Paul E Dennison, Ph.D.

March 11-21, 2010, Ventura California

- Teach Brain Gym 101.
- Experience dynamic personal growth and change in your life.
- Receive expanded understanding of the educational, drawing out model .
- Receive instruction in theory, teaching methods, and procedures, and develop an action plan for achieving your professional goals.
- Gain new understanding of how movement relates to learning and other life skills.
- Acquire the knowledge, hands-on practice and confidence necessary to make Edu-K a integral part of your consulting and teaching.

"Movement is the door to learning."

—Paul Dennison, Ph.D.

About the Intensive

The Dennison 11 Day Intensive will include Brain Gym 101, March 11-13, Educational Kinesiology In Depth, March 14-17, and The Brain Gym Teacher Practicum, March 18-21. Over the 11 days students will explore together the use of the Educational Kinesiology (Edu-K) processes to improve learning and information processing by unveiling hidden perceptual gifts blocked by the survival mechanism. Edu-K is intrinsically a non-intrusive process that recognizes that each person's adaptation to his or her life experience is part of a complex and personal pattern. The Brain Gym work has proven its value as a tool for release of stress and postural compensations and for the re-establishment of whole brain living and learning. Class size is limited. Participants must attend all 11 days. Open to licensure candidates who have completed all required course work.

You will learn

- The Brain Gym 26
- Teaching with Noticing
- Dennison Laterality & 3-D Repatterning
- Movement Re-education techniques.
- The 7 Dimensions and the 4 Realms

Paul Dennison did his doctoral research on reading and cognitive development. His clinical studies in the USA on the causes and treatment of learning difficulties resulted in the development of the Educational Kinesiology and Brain Gym© programs with his wife Gail Dennison. These programs are now used in more than 80 countries worldwide and translated into more than 40 languages. He is the author of Brain Gym and Me; Reclaiming the Pleasure of Learning.
