

Study with the Founder and Co-creator of Educational Kinesiology...

GRADUATE II 10 DAY INTENSIVE

A Graduate level course series with Paul E Dennison, Ph.D.

August 13-22, 2010, Ventura California

- Experience dynamic personal growth and improved postural Integrity
- Receive expanded understanding of the in depth educational, drawing out model and how to apply it in your life.
- Gain new understanding of how core integration relates to learning and quality of life.
- Acquire the knowledge, hands-on practice and confidence necessary to make Edu-K a integral part of your consulting and teaching.

"Movement is the door to learning."

–Paul Dennison, Ph.D.

About the Intensive

The Graduate II 10 Day Intensive will include a review of Educational Kinesiology In Depth, August 13-16, Total Core Re-patterning, August 17- 19, and Movement Re-Education, August 20-22. Over the 10 days students will explore together the use of the Educational Kinesiology (Edu-K) processes to improve posture, learn core movement and enhance the quality of their lives by unveiling hidden perceptual gifts blocked by the survival mechanism. Edu-K is intrinsically a non-intrusive process that recognizes that each person's adaptation to his or her life experience is part of a complex and personal pattern. The *In Depth and graduate* balances have proven their value as effective tool for release of stress and postural compensations and for the re-establishment of whole brain living and learning. Class size is limited. Participants must attend all 10 days Open to all!

You will learn

- An expanded In Depth menu
- 42 muscle Testing
- Core Re-Patterning Processes
- Expanded Movement Re-Education Menu
- *And much more!*

Paul Dennison did is his research on reading and cognitive development. His clinical studies in the USA on the causes and treatment of learning difficulties resulted in the development of the Educational Kinesiology and Brain Gym© programs with his wife Gail Dennison. These programs are now used in more than 80 countries worldwide and translated into more than 40 languages. He is the author of Brain Gym and Me; Reclaiming the Pleasure of Learning.
