

Study with the Founder and Co-creator of Educational Kinesiology...

Movement Re-education

A course with Paul E Dennison, Ph.D.

August 7-10, 2012, Ventura, California

- Experience dynamic personal growth and transformation in your life
- Receive a new and expanded understanding of the pre-checks and educational opportunities in the seven dimensions of intelligence
- Gain new understanding of how structural integrity relates to learning ability, reading, and quality of life
- Acquire the knowledge, hands-on practice and confidence necessary to make Movement Re-Education an integral part of your one-to one Edu-K consulting and teaching

“Movement is the door to Learning” –Paul Dennison, Ph.D.

About the Movement Re-education Course

The Movement Re-Education workshop explores the use of the advanced Educational Kinesiology process to improve structural alignment as it relates to whole brain learning and living. Edu-K is intrinsically a non-intrusive process that recognizes that each person's adaptation to his or her life experience is part of a complex and personal movement map. The Movement Re-education work has proven its value as an effective tool for release of postural compensations and the re-establishment of whole brain movement patterns.

You Will Learn:

New Movement Re-Education techniques
Review Repatterning techniques
Effective goal setting for personal growth
Self help tools
And much more!

Paul Dennison did his doctoral research on reading and cognitive development. His clinical studies on the causes and treatment of learning difficulties resulted in the development of the Educational Kinesiology and Brain Gym® programs with his wife Gail Dennison. These programs are now used in more than 80 countries worldwide and translated into more than 40 languages. He is the author of Brain Gym and Me; Reclaiming the Pleasure of Learning.
