105 - Double Doodle Play: A Window to Whole-Brain Vision (DD) 8 Hours

In this introductory course we will use the Double Doodle and other movements from Brain Gym® and Vision Gym® to explore and enhance visual perception and artistic expression. Participants will, through experience and discussion, gain a finer understanding of the relationship among visual skills, hand-eye coordination, and creative expression. Applications for parents, teachers and various age groups will be addressed. Open to all.

311 - Total Core Repatterning (TCR) 24 Hours

Focuses on the recognition of primitive homolateral reflexes that become integrated by repatterning. Training in the latest techniques for integrating primitive reflexes which interfere with learning and mature motor control. These tools are useful for helping all individuals, regardless of neurological or physiological limitations. Open to students who have taken Edu-K In Depth.

505 - Double Doodle Play: A Window to Whole-Brain Vision Teacher's Training (DDTT) 16 Hours

This teacher's training course supports Brain Gym Instructors in learning to facilitate Double Doodle Play: A Window to Whole-Brain Vision. This basic, experiential approach to playful art uses the Double Doodle activity from Brain Gym in mixed-media projects to explore visual skills and hand-eye coordination for sustained attention in the midfield. The homeplay for this course

is to complete and submit to the instructor a Double Doodle Play portfolio. Course manual included. Pre-requisites: Brain Gym Teacher Practicum, Vision Circles and Double Doodle Play twice plus being currently licensed.
